CANYON LEDGE

Featuring layers of texture and color that mimic the depth and beauty of a natural canyon, Canyon Ledge connects rustic comfort to artistic style and adds native warmth to any setting.

CASCADE LEDGE

This versatile style complements any architectural aesthetic and is especially suited to contemporary settings. A mix of ledge stones and cobble jumpers creates long, clean lines with a detailed face texture.

TUMBLED BRICK

Brick veneer lends a stately appearance to interiors and exteriors alike. Brick veneer is a popular alternative to traditional brick because of its lighter weight and lower installation cost.

CUT COBBLESTONE

Available in a variety of colors, this beautiful profile mirrors the classic look of rough-dressed stone. The chiseled face, rectangular shapes and irregular sizes create an elegant and timeless look and feel.

FIELDSTONE

Featuring randomized shapes with smooth to slightly rugged faces and accentuated with a grouted mortar joint, Fieldstone provides a natural look perfect for both traditional and contemporary settings.

MANORSTONE

This rustic style combines smooth and split-faced field and ledge stones of varying shapes and sizes to create an organic look that complements virtually any interior or exterior in both modern and traditional environments.

SHADOW LEDGESTONE

Molded from a Civil War fencerow, this unique profile has a craggy texture and warm earth tones that create a natural, rustic aesthetic.

TRUE STACK™

Individual stacked stones are molded into panels of varying lengths. The result is a tight-fitting, dry-stacked style with a rugged, stony texture.
