

VICTORIA HARBOR[®]

VARIFORM[®]
by Ply Gem

VICTORIA HARBOR®

Victoria Harbor® is a visually appealing, premium siding panel that offers both durability and style for the life of your house. Designed as a thicker panel, it's virtually weatherproof and can withstand winds up to 155 mph. Best of all, Victoria Harbor is nearly maintenance-free and will continue to look like freshly painted cedar year after year. No costly repainting is ever needed. And there's none of the flaking, peeling, checking, fading or crazing that's associated with paint. Available in a wide variety of colors, Victoria Harbor will give your home the updated look you want... and keep it looking that way for years to come.

WEATHER-RESISTANT

UV PROTECTED

LOW MAINTENANCE

VINYL SIDING IS A SMART INVESTMENT

According to a recent study by Zonda Media¹, homeowners who install vinyl siding, on average, recouped up to 94.7% of the cost, making re-siding one of the top improvement investments a homeowner can make. And because vinyl siding never needs to be painted, you can save thousands of dollars over the life of your home.

HERE'S HOW VICTORIA HARBOR

WORKS FOR YOU

Victoria Harbor is the perfect choice for style and sophistication. Its satin brushstroke finish gives the appearance of painted wood and its beaded edge adds dimension and depth. The full beaded edge on a 6.5" panel defines a hand-crafted look. This nostalgic design is not just timeless in simplicity and beauty, but also durable enough to stand the test of time, making it a great addition to any home.

Never Needs Painting

Victoria Harbor looks freshly painted for the life of your home. There's no need for costly maintenance, scraping, caulking and painting. And unlike paint, it won't crack, flake or peel.

Wind Resistant up to 155 mph*

The Standard Wind Load Design Pressure (DP) is 51 PSF**. And it's so sturdy, it can resist a Wind Velocity of up to 155 mph.

Premium Thickness

The .044" thick panels are more rigid and durable. They're state-of-the-art engineered to resist dents and scratches.

Enduring Color and Texture

A Variform proprietary color process ensures that color is embedded throughout the panel for long lasting beauty. Each panel has an authentic wood grain texture.

SUSTAINABLE BUILDING, RESPONSIBLE LIVING

We're committed to reducing our impact on the environment and providing products that help ensure a sustainable future.

Sustainable Resources

- Vinyl products made from abundant natural resources
- Minimal construction site waste
- Aluminum products contain over 80% recycled content
- Cornerstone Building Brands' facilities reuse and recycle

Energy Efficiency

- The impact of vinyl siding on global warming is 83% less than brick and mortar¹
- National distribution network reduces energy use and emissions
- Variform insulated siding increases a home's energy efficiency

Lifecycle Benefits

- Variform vinyl siding is durable and requires no site finish
- Vinyl siding should never require painting or staining
- All of our aluminum accessories are easily recyclable

*Example wind velocity for 51 PSF is 155 mph Zone B @ 30' building height.

**Tested in accordance with ASTM D5206. Wind speed rating will vary depending on specific code region and construction method. Refer to local building codes for detailed requirements concerning allowable wind loads and specified conversion tables for actual wind speeds.
